THE ART WITHIN

‘Sinfonia en Blau Profund’ by iEX

‘SINFONIA EN BLAU PROFUND’

iEX, 2025

To step into our entrance is to step into a movement, not merely of space, but of sound, rhythm and light.

In **Symphony in Deep Blue**, artist iEX does not simply paint; he composes. Spanning 45 meters in length and 4 meters in height, the mural unfolds like a grand musical score, where every symbol, every curve, every shade of blue plays its part in a visual symphony.

The Mediterranean reveals itself first: fluid, luminous, infinite. Beneath its surface, forms drift and intertwine, echoing the quiet power and constant motion of the underwater world. Yet look closer, and Barcelona emerges. Its creative pulse. Its daring spirit. The organic poetry of Antoni Gaudí and the architecture that redefined a city. Fragments of sea and city dissolve into one another, blurring the line between nature and imagination.

iEX once described the act of painting this mural as writing a symphony. And indeed, it resonates as one. There is rhythm in its repetition, crescendo in its scale and harmony in its contrasts. It is both expansive and intimate, an ecosystem in perpetual motion.

Here, the sea breathes into the city. The city reflects the sea. And together, they create a composition that welcomes you, not only to a hotel, but to Barcelona itself.

A curated artistic intervention developed alongside Bonart.

BARCELONA

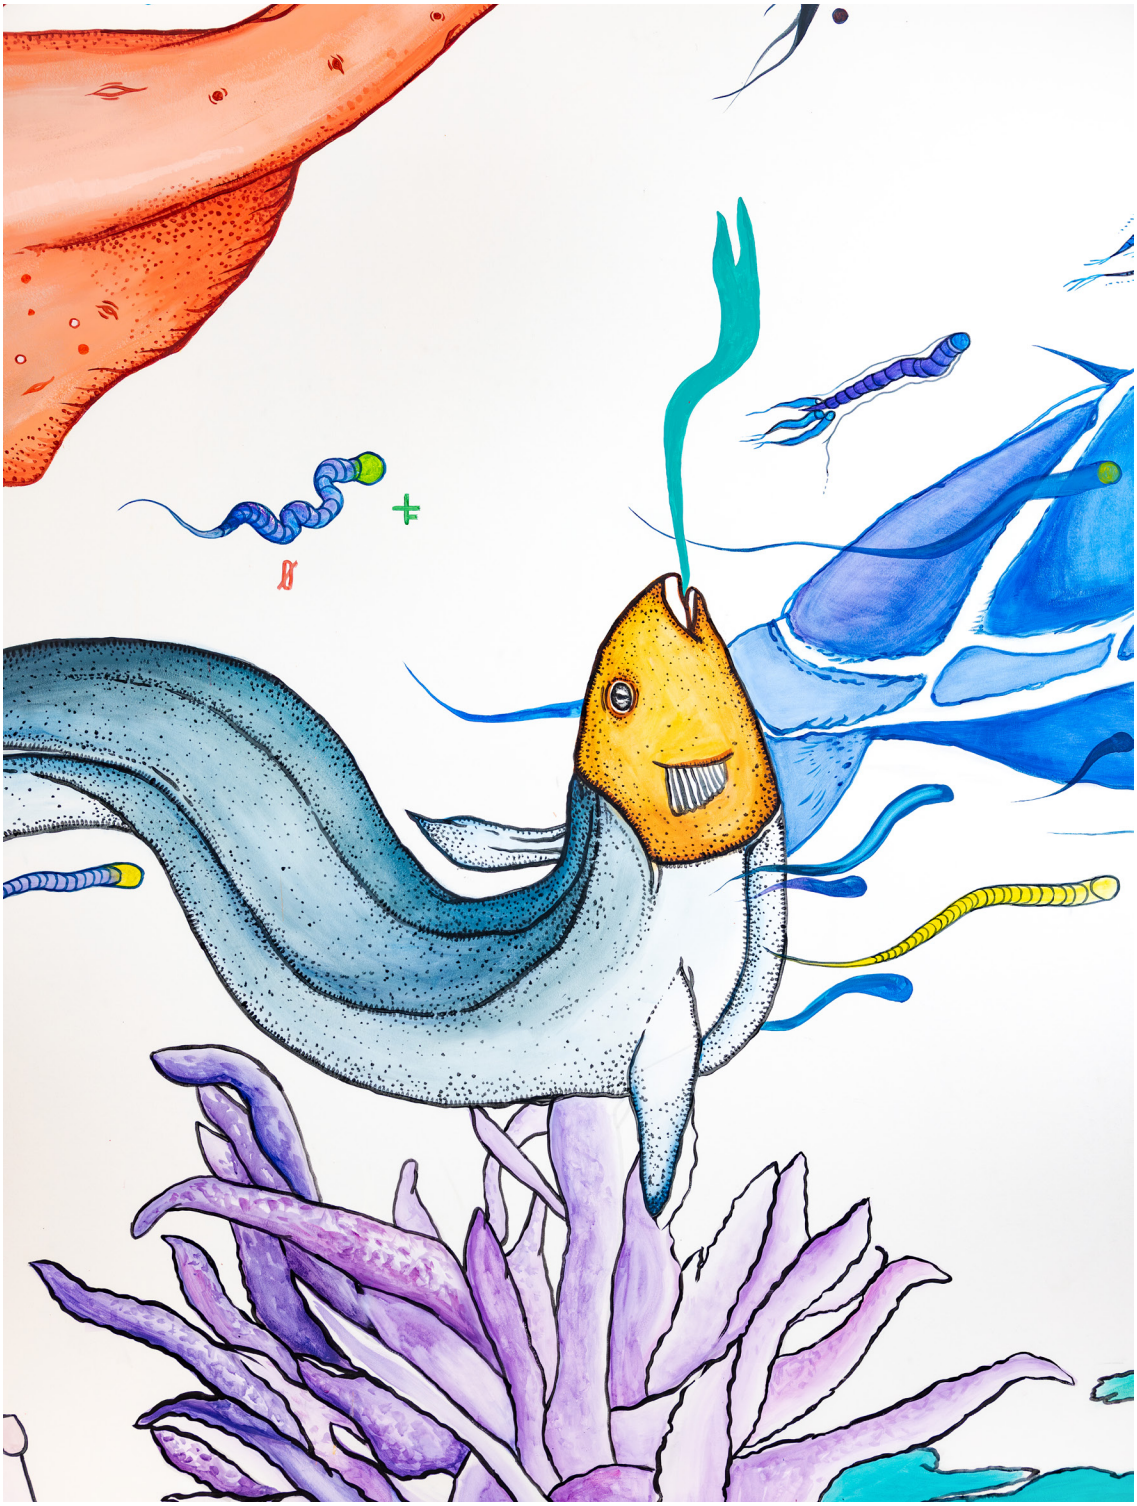

iEX - Esteve Martinez - is a multidisciplinary artist from Barcelona whose practice moves fluidly between painting, performance, digital media and video. At the core of his work lies a performative, immersive approach to painting, a process where gesture, movement and technology converge.

Blurring the boundaries between the visual and the performing arts, iEX transforms the act of creation into an experience, where canvas becomes stage and painting becomes a living choreography.

Artistic intervention located at the Porte Cochère,
at the hotel's ground-floor entrance.
