Hotel Arts Barcelona

THE ART WITHIN

‘Waves’ by Lorena Canals

‘WAVES’

Lorena Canals, 2026

Created exclusively for Hotel Arts Barcelona, these textile headboards by Lorena Canals bring together art, craftsmanship and sustainability throughout the hotel’s rooms and suites.

Inspired by Barcelona and the Mediterranean, each piece evokes the movement of waves, the softness of sand and the organic textures of the natural landscape.

Every headboard is handcrafted over twelve days at the designer’s own factory in India. Natural cotton, recycled PET fibres and non-toxic dyes are carefully combined using traditional techniques, making each creation entirely unique.

Founded in Barcelona in 1998, Lorena Canals’ work reflects a deep respect for craftsmanship and responsible design. Her approach brings together contemporary aesthetics, natural materials and the distinctive creative spirit of the city.

Through texture, colour and form, the headboards introduce warmth, calm and authenticity, transforming each room into a sensory experience where beauty and purpose come together.

Discover the process and
step inside the artist’s mind

Lorena Canals is a Barcelona-born textile artist and designer whose work bridges craftsmanship and contemporary design. Rooted in traditional techniques, she collaborates closely with artisans, bringing her creations to life on handmade looms.

Through her exploration of colour, texture and material, she transforms textiles into immersive pieces that engage with space and architecture, redefining textile as a contemporary artistic medium.
